

COLLAGE OWL

Here's how to make a collage owl, all you need is some scrap paper, plain paper, scissors and felt tip pens.

First, tear the scrap paper into small pieces, then draw an oval on some plain paper for the owl's body and glue the pieces of paper randomly to fill the oval.

Finally, cut out a triangle for a beak and colour that yellow, then cut 2 circles and colour a black smaller circle inside for the eyes, you can even cut a branch for your owl to sit on!
